

2024 Programme

Join, engage and network with the global community of senior renewable energy and investment leaders.

Why Tamarindo?

Tamarindo is the global network for senior executives who are focused on accelerating the adoption of renewable energy globally.

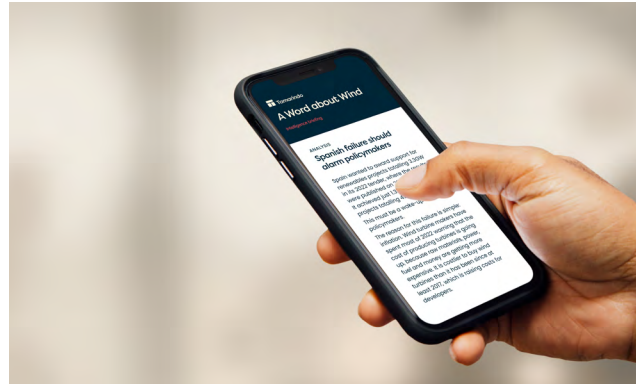

We help you grow your business by enabling you to connect, network and learn through impartial news, analysis and events.

Join today and you'll be able to:

Build your network at our industry-leading events

At our flagship conference, at our awards ceremony and in any of our working groups or membership networking evenings, we'll put you in the room with the people you need to know.

Stay up to date with the latest industry news

Receive updates and insights direct to your inbox, with our email Intelligence Briefings. Every day, our editorial and insight team track and monitor the market, providing you with regular, concise industry analysis.

Make the right decisions for your business

Access to essential, impartial information and insights on renewable energy development and investment trends to inform your decisions, including early access to our special reports.

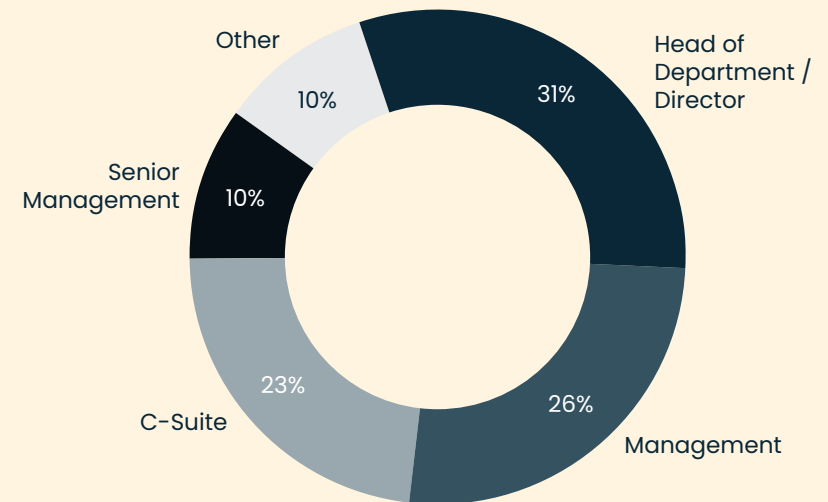

Connect with leaders in the field

Established for well over a decade, our active community comprises many of the most influential developers, investors and key players, operating within the global clean energy and renewables market. Join our community today and benefit from building your network and stay up to date with the latest market news, to ensure you make the right decisions for you, your team and your business.

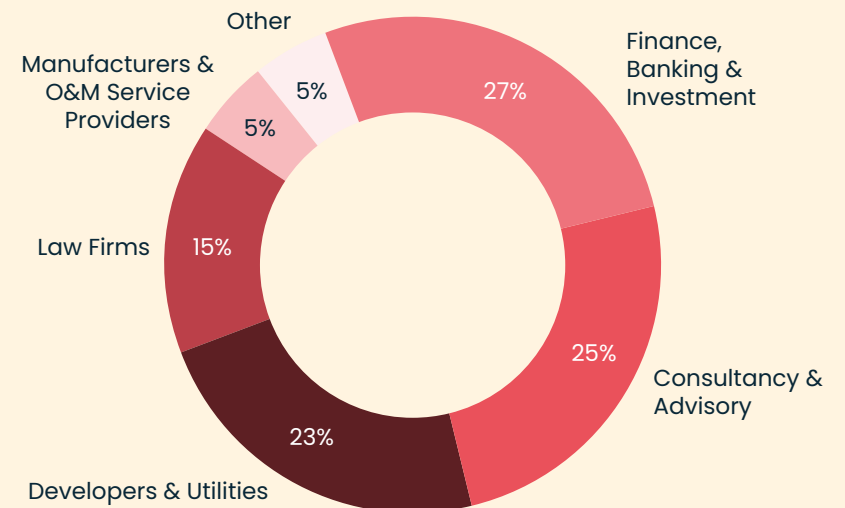

“ It is an environmental imperative that we accelerate the deployment of wind and all forms of renewable generation, in Europe and further afield. Bringing together key stakeholders, my hope for this community is that we identify and shine a light on blockers to scale, exploring ways to remove or work around them, to help accelerate the critical transition to a green, clean energy future.

Sam Goss, Head of Investments, Octopus Renewables

Exclusive events

Our community benefits from exclusive access to our conferences and complimentary entries to our global awards programme.

Financing Energy Transition

Financing Energy Transition brings together the top clean energy developers, financiers and investors to evaluate the state of the energy transition and discuss actionable solutions to build better, more profitable, more sustainable, renewable energy projects.

You'll make important contacts.

We invite a diverse range of companies, and keep ticket numbers capped. That way, you know that networking will stay focused and helpful to your business.

You'll get answers to the industry's most challenging questions.

Our editorial team are experts in the wind, energy storage and hydrogen sectors – so we know exactly how to ask the most relevant questions. And because we only book truly authoritative speakers, you can be sure you'll get valuable answers.

You'll learn from the industry's definitive voices.

2023 Speakers included:

SMBC

Ray Wood
Bank of America
Securities

David Foulon
TotalEnergies

Amy McGinty
Vestas

Virginia Ruiz Abacete
Copenhagen Offshore
Partners

Drew Burke
Shell Renewables &
Energy Solutions

Wind Investment Awards

Celebrate your success, raise your profile and get the recognition you deserve at the leading awards programme for wind and renewable energy investment.

[See the 2024 categories](#)

“ This is the event in the wind industry calendar that’s attended by those that influence the strategic direction of the market – and even more importantly, it celebrates their efforts!

Stephen Jennings, Head of Energy & Structured Finance – EMEA and Head of Sustainable Business Division – EMEA, MUFG

“ Innovative finance and investment strategies will be fundamental to delivering the projects, technologies and supply chain the wind industry needs to drive the growth required to meet and exceed its ambitions. These awards are a fantastic opportunity to celebrate and learn from those leading the way.

Mary Thorogood, Government Affairs, External Relations and Communications Director, Net Zero Technology Centre

Keep your finger on the pulse with our intelligence, analysis, news and reports.

Intelligence Briefings

We will deliver directly to your inbox every week the latest industry news, trends and analysis from the global wind, energy storage and power-to-X markets. We sort through what's important so you don't have to.

Exclusive Reports

You will get access to exclusive thought leadership reports, white papers and analysis to dive deep into specialist topics and future trends from across the renewable energy industry.
